

To Whom it May Concern:

K-Love is a very important part of my life--I recently became a born again Christian, and listen to K-Love nearly every day. I support K-love financially, and talk to my friends about the positive influence K-love has had on our families. There is a lot of sex, and music with what I consider terrible lyrics on the air today, but I can always trust K-love's music to be positive, encouraging and something my kids can listen to. My three year old even knows some of the K-love songs, and sings them at home! Praise God!

I think if K-love were replaced in our community, our community would suffer! I see a number of cars with K-love bumper stickers, and talk to those who think of listening to K-love as a chance to worship God, which they might not otherwise have. Other stations, like the ones that play Howard Stern or music with sexxually explicit or violent lyrics could easily take over, and that would be bad! I used to listen to this type of music as a kid, and regret it because I had a very bad attitude about myself and others after listening to hateful or explicit lyrics. Please help us limit this type of negative music!

We need K-love not just in our community, but in EVERY community in the U.S.!
